

Are you thinking of a GAP year or looking for some valuable work experience before you start a university course?

With the potential to earn up to around £18,000, flexible hours and no prior experience necessary, we might be able to offer you just what you need.

We're looking for individuals who are passionate about their subject and helping and supporting others to learn.

Read on to find out more...

If you are:

- taking a gap year or looking to build skills that stand out to employers and gain work experience that will support applications in the future?
- passionate about your subject field and helping and supporting others to learn?

We may have the role for you. We are looking for enthusiastic individuals to work with young people across primary and secondary schools with the Alban Academies Trust. Our roles will build excellent transferable skills including relationship building, leadership, communication, coaching and influencing.

We can offer great flexibility and work life balance with a range of hours during the school day and within term times. We will work with you to match you to the best role possible and provide you with the training needed to equip you in your role so no prior experience is necessary.

ROLE 1:

Teaching/Learning Support Assistants:

work with individual students whilst the teacher is taking the lesson. They support students, clarifying and explaining instructions, motivating and encouraging them to complete work, and promoting and reinforcing self-esteem. Teaching assistants are role models to students supporting them in their learning and as they grow as individuals.

ROLE 2:

1-2-1 tutors:

provide support to students outside of the classroom, either face to face or through a blended approach of face to face and online once an effective relationship has been established. They help students to build upon their subject knowledge and reach their full potential. We are looking for 1-2-1 tutors in English, Maths, Science, History, Geography, MFL (Spanish, German and French) and Computer Science.

LOCATIONS

Roles available in our Primary and Secondary schools in St Albans and Welwyn Garden City

REQUIREMENTS / SKILLS & EXPERIENCE

- Educated to GCSE or A Level
- All necessary training provided
- DBS check will be required

BENEFITS

- Salary up to around £18,000 per year (depending on hours worked)
- Term time only and hours during the school day
- Variety of contracted hours available

If you think you would make a great addition to one of our teams and our roles could help support your career aspirations, then please get in contact through info@albanacademiestrust.org.uk and we can advise you on how to apply.

Closing date for application is 26th June 2023 but please get in contact as soon as you can

OSCAR – LEARNING SUPPORT ASSISTANT AT VERULAM SINCE NOV '22

A Levels: Philosophy and Ethics – A, English Literature – B, History – A*

I will study for a degree in Philosophy, prior to training to become a secondary teacher.

I left Verulam in the July of 2022 and started to work as an LSA from the November of the same year. I have thoroughly enjoyed the challenge that each student poses – whether it be as simple as helping them tie a tie or as complex as an algebraic Maths equation. To help a student achieve this end is remarkably rewarding, especially coming from the perspective of being a Verulam alumnus. Thus far, to help the next generation of Verulam students has been nothing short of a privilege and I know I have benefited from this too.

IOAN – TEACHING ASSISTANT AT RIDGEWAY ACADEMY SINCE SEPT '22

A levels: Geography: A, Maths: B, Biology: C

I am currently studying Maths with the Open University after doing 2 years of biomedical engineering at Swansea University.

I enjoy the role of a teaching assistant as it is very different from anything I have done before. I like the fact that what I do every day helps people and will hopefully have a long-lasting effect. I also like the variety of subjects and year groups that I can help in as makes every lesson feel unique. I have enjoyed this role so much my plan now, after finishing my Maths degree, is to apply for a teacher training place and eventually become a Maths teacher.
